

County Outdoor Rankings

These junior and senior county rankings comprise the 2023 outdoor season (April to October). Scores will be converted into handicaps.

The average of your best 3 handicaps will be used to create the rankings.

Rounds will only include those from the new "Prestige Rounds" (WA720, York/Hereford/Bristol and WA 1440/Metric).

You can "shoot up" to a longer round, but you cannot submit rounds for shorter distances.

You will be able to submit scores for any round where it is possible to get a Master Bowman Classification for your bow style and age group. Please check the Official Archery GB classification tables for [full information](#).

Scores can be shot at record (WRS/UKRS) or non-record status tournaments, or Club Target Days.

Scores can be submitted using [this form](#)

A rolling ranking system will be updated regularly on the County website as scores are submitted.
